
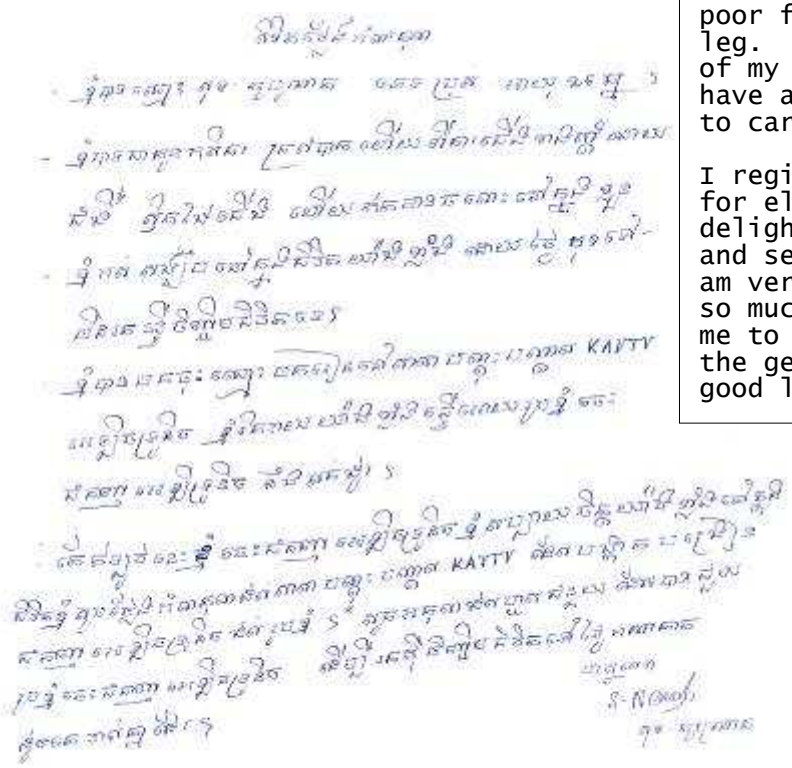
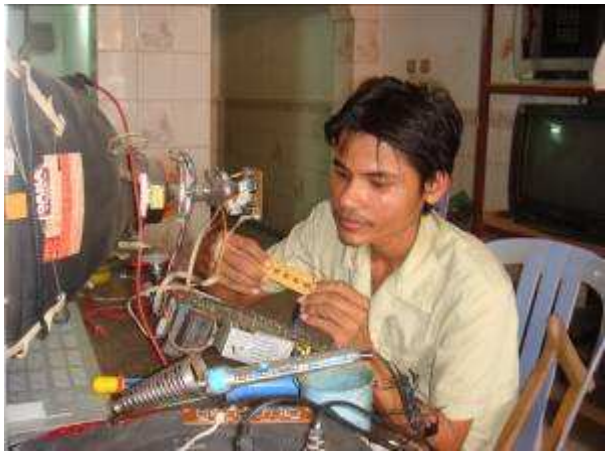
My name is Yei Chim, female, age 20 years old. I got disabled in my right leg following a strong fever. Before, I did learn nothing. I did not have knowledge in myself, it made myself feel no hope in my life.

After gaining the training skills from KAVTV School such as repairing electronic skill and selling, I can make money for a living just like other people.

I want to thank to KAVTV and all donors that supported to me.



I am Sok To Bonat, male 26 years old, son of poor farmers, and disabled by polio in right leg. Before I had no knowledge to take care of my life, I felt completely hopeless to have a good future and hat job I could find to care for myself.


I registered to learn at the school KAVTV, for electric-electronic skills. I felt delighted to learn the electric- electronic and selling skills. Now I have knowledge, I am very happy in my life. I want to thank so much to KAVTV training school that helped me to get knowledge and many thanks to all the generous donors have helped me earn a good living in the future.
